Learn about discoveries being made in one of the nation’s premier centers for the study of molecular engineering and nanotechnology and hear from leaders in industry and academia about impacts across fields from health care to energy to technology.

**Clean Technology Session**

2:30 - 3:00 pm  Jihui Yang, UW Materials Science & Engineering
3:00 - 3:30 pm  Z. Gary Yang, UniEnergy Technologies
3:30 - 4:00 pm  Lilo Pozzo, UW Chemical Engineering

**Biotechnology Session**

2:30 - 3:00 pm  Paul Yager, UW Biengineering
3:00 - 3:30 pm  Daniel Chiu, UW Chemistry
3:30 - 4:00 pm  Dennis Benjamin, Seattle Genetics

**Poster Session & Reception**

Meet students working on research in nanotechnology and molecular engineering and mingle with speakers and colleagues from across campus and within local industry. Food and drinks provided.

**Register now to attend or present a poster at** [www.MolES.washington.edu/showcase](http://www.MolES.washington.edu/showcase)
